

### **Amendments to the Claims**

1        (Original) A process for producing a deep-fried bean curd pouch which comprises emulsifying a soybean protein, a fat ingredient and water, followed by addition of a solution of a coagulant.

2        (Original) The process according to claim 1, wherein the coagulant is a rapidly acting coagulant.

3        (Original) The process according to claim 1, wherein the coagulant is magnesium chloride, calcium chloride or a bittern.

4        (Original) The process according to claim 1, wherein the coagulant is added in an amount of 0.5 to 5% by weight based on the soybean protein.

5        (Original) The deep-fried bean curd pouch produced by the process according to claim 1.

6        (New) The process according to claim 1, wherein the coagulant is selected from calcium salts and magnesium salts.
